Guitars consist firstly of a hollow body made of wood, the so-called corpus, secondly the neck with the fingerboard and thirdly the head with the vertebrae. The strings are stretched from the head to the bridge on the body. When you pluck a string, it begins to vibrate and produces a sound.

BE THE
GUITAR

THE GUITAR

My favorite instrument is the guitar because it makes lot of fun to play it. I have two acoustic guitars and one electric guitar. But when I play with the e-guitar it makes much more fun than the acoustic guitar.

My favorite guitar player is Jimi Hendrix because he was one of the best guitar players ever and he made cool music.

My favorite genre to play is rock and blues.
And because all of these things the guitar is my favorite instrument.

THE MUSIC CLASS

At the Herderschool there is a music class. When you join it you can learn to play an instrument. For example you can learn the trumpet. The other instruments are the flute, the saxophone, the euphonium and the trombone. And then you can play a concert. The people like that. The music class is from the fifth to the sixth class. After the music class you can go to the junior Big Band. When you are really good you can go to the Big Band. So when you like to join the music class then go to the Herderschool.

OneRepublic

OneRepublic is an American Pop-Rock-Band from Colorado. 2007 they became famous for the song „Apologize“. In 2013 the song „Counting Stars“ topped the success of 2007. The song has over 3 billion views on Youtube! Many of the songs from OneRepublic were used for films and TV-series in America, for example in „Vampire diaries“ and „Gossip girl“, and also in Germany, for example in „Keinohrhase“ and „Zweiohrküken“.

the band consists of: Ryan Tedder(middle, song singer), Zach Filkins(in the middle between right and the middle, guitarist), Brent Kutzle (in the middle between left and middle, bassist), Eddie Fisher (left, drummer), Drew Brown (right, guitarist)

My favorite songs from OneRepublic are:

Rescue me([OneRepublic - Rescue Me - YouTube](#))

Counting Stars([OneRepublic - Counting Stars \(Official Music Video\) - YouTube](#))

Let´s Hurt Tonight([OneRepublic - Let's Hurt Tonight - YouTube](#))

The euphonium

My favourite instrument is the euphonium.

It was invented in 1843. I play it in the „Bläserklasse“. It's a small tuba and you play it in the base clef.

In the „Bläserklasse“ we're the lower section.

Bildquelle: https://www.thomann.de/de/besson_be2052_1_prestige_euphonium.htm

My euphonium weighs with the suitcase 7.8 kg. So the way to school isn't easy, because it's really heavy to transport it with the bike.

My favourite song to play is „Quarterttime Blues“ ,because it's like a pop song.

Famous euphonium players are: Joseph De Luca and Pinguin Moschner (hier auf dem Bild¹ zu sehen).

Here're two links about the euphonium:

Amazing Grace (Euphonium and Piano play Misa Akahoshi): <https://youtu.be/nrkyJhT0XO4>

When I play it, it's a cool and relaxed sound.

I hope it's possible to continue playing this instrument in the Junior Big Band at our school.

Paikia Koch

I LIKE THE TRUMPET

My favourite instrument is the trumpet.

The trumpet has been around for 3000 years.

At first it was made of wood.

Josef Riedl created 1832 the first pump valve trumpet.

The trumpet has a mouthpiece, three pump valves, three pump trims and a sound cup.

Today it costs about 163,-€ - 1159,-€ .

Most trumpets are golden, but some are silver.

The deepest tone is the small fis and the highest tone is the C³.

I play the trumpet in a school band.

My teacher is Mrs. Maack and the band leader is Mr. Sitte- Domingues

I like the trumpet because you can play lots of songs with it.

A well-known jazz trumpet player is Louis Armstrong.

Here you can listen to one of his songs:

Julian

My favourite instrument: The clarinet

By Julius Kersten

The clarinet is an old woodwind instrument, its history goes back to the age of ancient Egypt. There are many different types of clarinets in different tone pitches, here you can see a bass clarinet in *B*, a basset-horn in *F*, clarinets in *D*, *B*, *A*, *high G* and *Es* and a bass clarinet in *A* (from left to right).

In modern times the most common clarinet is the *B* clarinet, another popular clarinet is the *A* clarinet, which is a half-tone lower than the *B* clarinet.

Just like the saxophone, a clarinet has a reed, a thin strip of wood, which is attached to the mouthpiece. The reed vibrates when the clarinet is played and produces the sound of the instrument.

There are two general clarinet setups with a different number of keys and holes, often called the German and the French system. While the German system is mostly used in Germany and Austria only, the French system is used in the rest of the world.

The *B* clarinet for example consists of five parts:

mouthpiece with reed

barrel

upper joint with keys

lower joint with keys

bell

The clarinet has proved to be a very flexible instrument used in the classic music style, in concert, military and marching bands, in jazz and almost any other music styles. Here are some examples of clarinet music:
